KHAIRUL ROHMAN

Data Analyst | Business Intelligence | Power BI
081219971941 | khairulrohman87@gmail.com | Linkedin | Portfolio

PROFESSIONAL SUMMARY

Data and reporting professional with **10+ years of experience in data**, reporting, and operations within the financial services industry. Skilled in **SQL Server**, **Power BI**, **Python**, **ETL processes**, and **dashboard development**, with a proven track record of automating workflows and improving **operational efficiency by up to 40%**. Experienced in transforming and analyzing data, developing Business Intelligence solutions, and building reporting automation to support data-driven decision-making.

CORE COMPETENCIES

- **Programming & Query Languages**: SQL Server (Advanced SQL), Python (**Pandas, NumPy**)
- **BI & Data Visualization**: **Power BI**, Dashboard Development, **DAX**, **Power Query**
- **Data Analysis**: **Exploratory Data Analysis (EDA)**, Customer Segmentation, KPI Analysis, Credit Risk Analysis, Predictive Analytics, Statistical Analysis
- **Database & Data Management**: **ETL** Processes, **Data Pipeline** Development, Data Modeling, Data Integration, **Data Cleansing**, Data Validation, **Common Table Expressions (CTE)**, **JOINs**, **Subqueries**
- **Spreadsheet Tools**: Microsoft Excel, Google Sheets (**Pivot Tables, XLOOKUP, Advanced Formulas**)
- **Automation**: Google Apps Script, Reporting Automation
- **Collaboration & Communication**: Business Requirements Gathering, Stakeholder Reporting, Cross-functional Collaboration, Data Storytelling

PROFESSIONAL EXPERIENCE

Freelance Data Analyst | Self-Employed — Jan 2025 - Present

- Developed **15+ interactive Power BI dashboards** for sales analysis, supply chain, customer churn, inventory management, stock-out risk, and various business intelligence needs.
- Collected, cleaned, transformed, and modeled data using **SQL, Power Query, DAX, and Microsoft Excel** to deliver actionable insights that support business decision-making.
- Developed **data automation solutions** using **Google Apps Script** and **Google Sheets**, including data pipelines, payment reminders, automated report distribution, and certificate generation.
- Reduced reporting time from **approximately 2 hours to less than 10 minutes** by automating data consolidation and reporting processes across multiple data sources, improving operational efficiency and data accuracy.

Credit Analyst (Data & Reporting Support) | PT Moladin Finance — Mar 2023 - Jul 2024

- Extracted, validated, and analyzed prospective customer data using **SQL** to support **creditworthiness assessments** and large-scale credit bureau checking processes.
- Developed **automated workflows using Google Apps Script** to collect, validate, and distribute credit bureau data for prospective customers, improving operational efficiency and reducing manual effort.
- **Reduced data verification time from 1 hour to 20 minutes** by automating data cleansing and batch processing activities, **increasing operational efficiency by 40%**.
- Developed **Power BI dashboards** to monitor credit quality, approval rates, and portfolio performance, supporting risk monitoring and **management decision-making**.

- Identified operational bottlenecks and translated analytical findings into **actionable recommendations** to improve process efficiency and risk monitoring.

MIS Staff (IT & Reporting Support) | PT Procar International Finance **Feb 2015 - Feb 2023**

- Extracted, validated, and processed operational, payment, and portfolio data using **SQL Server** to support business reporting and analytics requirements.
- Prepared and analyzed monthly performance reports covering sales, portfolio distribution, and **payment delinquency trends**, providing management visibility across **30 branches**.
- Developed **KPI dashboards using Microsoft Excel and Power BI** to monitor branch performance and operational metrics, supporting performance evaluation and decision-making.
- Analyzed payment and collection trends to **generate insights** for Collection, Marketing, and Operations teams.
- Ensured data accuracy and report availability by **auditing more than 9,000 transactions daily**.

Broadcast Development Staff | PT MNC Sky Vision INDOVISION **Mar 2011 - Mar 2014**

- Managed data upload, validation, and monitoring processes to ensure consistency and accuracy of operational information within internal systems.
- Participated in **User Acceptance Testing (UAT)** and documented **business requirements** to support system development initiatives.

PROJECTS & PORTFOLIO

Customer Data Integration & Cleansing Pipeline (Advanced SQL)

- Designed a customer data integration process using **SQL Server** to consolidate data from **three different system environments**, improving data consistency and quality.
- Developed **SQL queries and Common Table Expressions (CTEs)** to eliminate duplicate records, standardize customer information, and enhance data accuracy.
- **Reduced weekly manual data processing time from 5–6 hours to less than 1 minute** through automated data cleansing processes.

Marketing Campaign Performance Analysis (SQL Server)

- Analyzed marketing campaign effectiveness **using aggregation functions, JOINs, and subqueries** in SQL Server to evaluate marketing spend efficiency.
- Identified top-performing channels and campaigns based on **ROAS, conversion rate, and click-through rate** metrics.
- Provided **budget allocation recommendations** to improve campaign effectiveness and profitability.

Credit Risk Profiling & Customer Segmentation (Python)

- Conducted **exploratory data analysis (EDA)** on historical loan data to identify factors influencing default risk.
- Built a **classification model using Python** to segment customers by risk level, achieving **67% recall and an AUC score of 0.75**.

CERTIFICATIONS

- **Google Analytics** - Google | July 2026
- **Ai Skills Fest** - Microsoft | June 2026
- **SQL Course** - Ngulik Data | May 2026
- **Data Analyst Bootcamp** - DQLab | August 2025

EDUCATION

Budi Luhur University | Bachelor of Computer Science | GPA: **3.60** (4.00) **2006 - 2010**
